AGREON

Graduate Program

Agreon seeks highly motivated, ambitious graduates that have completed a computer software related degree with a high credit average or above and possess strong problem solving, leadership and interpersonal skills. Highly regarded are graduates with a strong multi-disciplinary development background with knowledge and experience with at least 2 of the following languages: Java, .Net, JavaScript, XML, C++, are willing to travel, and have a demonstrable record of working both autonomously and in a team environment.

Within the Agreon Graduate Development program you will be provided with extensive training, will be assigned a senior staff member as a mentor and will have a flexible career path, determined and tailored to your talents and aspirations, whether that be business analysis, project management, development or consulting.

If delivering complex and innovative solutions to the world's largest organisations excites you, then please forward your resume and a brief covering letter, referring to one of the Positions below, highlighting your particular experience and ambitions to Sharon White at recruitment@agreon.com.au.
